### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

As noted in Applicant's remarks of 21 July 2006, the features of claim 22 as amended are not taught or suggested in the prior art. The prior art made of record, found in a further search, shows the use of various forms of pressure in general, to fill via holes (first three references). Squeezing does not appear to be involved, and there is no disclosure that friction, per se, is what retains the material in the via hole (as opposed to, say, a chemical reaction process involving the metal). The last reference shows a prior art deposition process to fill holes underlying a die.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Crane, whose telephone number is (571) 272-1652.

The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
